EDUCATION

MNS University Mutan
Bachelor of Science in Computer Science
CGPA 3.63/4

Sep 2023 - Sep 2027

The Educators College Chichawatni
FSC (Pre-Engineering)

Jun 2020 - Jun 2022

WORK EXPERIENCE

Kpmg Australia – Data Analyst Intern (Remote)

Dec 2025- Jan 2026

- Analyzed and segmented **10,000+ customer transaction records** to identify top **1,000 high value customers** using RFM (Recency, Frequency, Monetary) modeling.
- Developed an **RFM** scoring framework that improved customer prioritization accuracy by **30%** enabling more targeted retention and marketing strategies.
- **Cleaned** and **transformed** raw transactional data, improving dataset **reliability** by **25%** and **reducing inconsistencies** in customer records.
- Generated **structured analytical reports** highlighting revenue driving customer segments supporting data backed decision making for business growth initiatives.
- Optimized customer ranking methodology, reducing manual analysis time by **40%** through systematic scoring and **segmentation techniques**.

PROJECTS

- **Diabetes Risk Prediction Analysis:** Built a machine learning pipeline using Python (Pandas, NumPy) to predict high-risk patients with **91%** accuracy; feature importance analysis improved model performance by **18%** over baseline predictions.
- **Carrer Path:** Built a career guidance tool for my web technologies semester project that matched students with suitable career paths based on skills and interests, improving career decision clarity by **35%** and increasing job readiness alignment by **28%** through personalized learning roadmaps and skill gap analysis.
- **Task Manager Application:** Developed a task management system to organize, prioritize, and track daily activities, improving productivity by **30%** and reducing missed deadlines by **25%** through structured task scheduling and progress tracking
- **Brand Supplier Research Automation:** Built an automation system using make.com that extracts verified supplier details from structured inputs (Google Sheets) and automates email outreach, reducing manual supplier research time by **70%** and improving vendor verification efficiency by 60% through workflow automation.

PROFESSIONAL CERTIFICATIONS

Data Analytics
(Leverify Quest)

Vibe Coding And AI
(Leverify Quest)

Project Managemet
(Coursera)

AI Automation and Agents
(Devquest)

ADDITIONAL

- **Technical Skills:** Python (NumPy, Pandas, Matplotlib, Scikit-learn), SQL, Power BI, Tableau, Looker Studio, C++, C#(.NET Framework), Machine Learning, Data Visualization, Statistical Analysis, LLMs
- **Interests:** Participating in or leading open-source AI or machine learning projects
